During December 2019, the airport's passenger traffic recorded an increase of 5.3% and reached 1.64 million. International passengers demonstrated a strong growth at the level of 10.9%, while domestic air travellers presented a decrease of 6.7%, attributed to the offered domestic services' reduction compared to the previous year's respective winter period.

Overall, in the year 2019, the Athens International Airport recorded an all-time high performance with 25.57 million passengers, surpassing previous year's traffic by 1.4 million (+6%). This outcome was solely driven by the robust growth of the international market (+1.4 million or +8.6%), while the domestic market retained prior-year levels (+0.3%).

December 2019 traffic statistics are provisional and subject to change; traffic data for the previous month are finalised following the 20th of each month
